Personal Color Guide

Everyday and Dramatic Combinations For
Face, Eyes, & Lips

One of the greatest pleasures I experience from owning my own business is the personal interaction with my customers. When I visit stores to do events, I am thrilled to see the delighted expressions on the faces of many of my wonderful clients after a Make-Over session. During many of my store visits I often hear the comment, “I would have never have thought of selecting that color for myself!”.

Since the products are now sold in almost every state in the U.S., throughout Canada, and in several countries in Europe and the Far East, it is impossible for me to personally visit each of the stores carrying my products.

So, with this in mind, I have created this Personal Color Guide to help you choose the most flattering shades for your complexion. I have taken great care to personally select colors that compliment individual skin, hair, and eye color combination. Have fun, experiment a little, and don't be afraid to try something new. As always, if you have any questions or comments please feel free to call.
